INTERIOR DESIGN

The interior layout is exquisite, intelligent and convenient, adopting a wrap around center console design for safe and convenient driving.

INTELLIGENT DESIGN

5-inch TFT instrument cluster. Easy to see the speed, energy consumption and energy recovery.

7-inch high sensitivity touch screen display; support the use of radio, bluetooth, and and hands-free phone call; integrated with reverse camera.

Knob shifting makes driving easy and no clutch is needed.

SAFETY

Reverse Camera

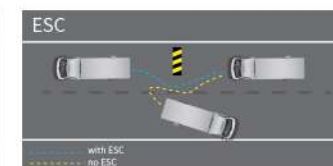

Reverse Radar

Proactively prevent the vehicle from locking up during emergency braking to prevent loss of control.

Low Speed Pedestrian Warning System

Electronic Stability Control

Hill Start Assist

DURABLE DESIGN

Front Axle:
1.5 tons carrying capacity.

Rear Axle :
3 tons carrying capacity.

610L high-strength steel, 38% stronger than the 510L material which is used in the same class truck.

4 in 1 Integrated Controller:
High integrated, less space, less weight. Easy to maintain and repair.

Lithium Iron Phosphate Battery by CATL, global leader of battery manufacturer.
